**VISITATION  
PROGRAM**

1030 Second St. Pike  
Southampton, PA 18966

Bethanna's Visitation Program provides a supportive, goal directed visitation service for children and families involved with County Children and Youth Agencies. Visitation plans are offered at convenient times and locations for legal parents and their children. Visitation is offered in a variety of settings in order for parents to develop and establish skills in a variety of situations. These settings include office, community and home visitation.

Bethanna's Visitation Program adheres to the following goals in providing Visitation services:

- Visitation is structured to affirm family strengths, cultural heritage, traditions and special events. Visits will be consistent and goal directed.
- Families are assisted in utilizing visitation as a tool to promote safe, nurturing and meaningful family interactions to maintain and strengthen family connections.
- Opportunities are provided for parents to improve parenting skills, life skills related to parenting, and gain knowledge regarding their child's developmental needs.
- Bethanna works in conjunction with County Children and Youth to contribute information for permanency planning decisions based on parental progress with visitation goals.
