Parent Cafes – Protective Factors

Community Umbrella Agencies (CUAs) host Parent Cafés in 10 different regions across Philadelphia. Bethanna hosts our cafés in South Philadelphia and Center City. Cafés are safe spaces where parents/caregivers, and family members support each other. They are judgement-free sessions and discussions revolve around the 5 protective factors below. These factors help people to recognize their strengths and learn how to build on them. It's a great way to discuss the highs and lows of parenting. All are welcome and a meal and childcare are provided at in-person cafés, some are being held virtually through Zoom. Registration is required, contact information and a QR code is on the front of this flyer.
